Nine Quality Indicators of Consideration

1. Application Process

Union County is a small rural school district which is comprised of three schools; Lake Butler Elementary School (grades PK-4), Lake Butler Middle School (grades 5-8) and Union County High School (grades 9-12). Parents may obtain registration packets at each of the school sites where they will be processed upon receipt. Information regarding special programs, dual enrollment, virtual classes, free/reduced lunch, transportation, and other pertinent information is shared upon registration and is available on the school and district websites. Since there are no other public or charter schools within the county, there are no zoning or school choice issues to process. McKay Scholarship information is shared with parents of eligible students on an annual basis.
